

SOCIAL SKILLS GROUP

Teaching social skills to individuals with autism is an area of treatment that is continuously evolving. At ABA Group, we offer group-based social skills and mental health programs designed to strengthen the communication skills and social interaction abilities of children, teens and young adults diagnosed with ASD.

ABA group offers groups in our North and South offices for 3-6-yearold's, preteens, teens&Minimally verbal kids ; The ABA group also offers a 18-25-year-olds group to learn Independent living skills.
